MAJOR LEAGUE  
BASEBALL  
IS COMING  
TO SIN CITY

# MEET THE LAS VEGAS VENOM

The Las Vegas Venom is the newest MLB expansion team that will be joining the league before the 2022 season. The Venom will be placed in the American League West division and will be comprised of current Major League players following the second ever MLB expansion draft.

## WHY LAS VEGAS?

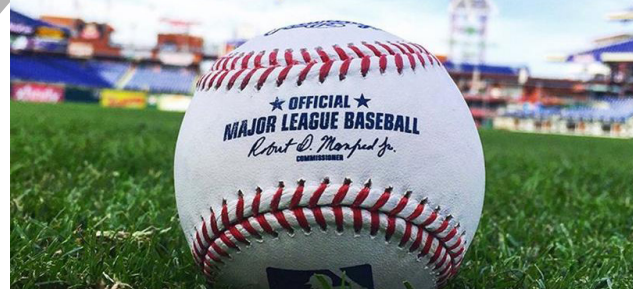

Las Vegas has already proven to be one of the most popular and successful sports cities in America. Despite their recent introduction into the larger professional sports, the city has fully embraced both the Raiders and the Golden Knights from the NFL and NHL, respectively. It was only a matter of time and none better than now for MLB to join the ranks of teams in Sin City.

## THE TEAM'S GOAL

With this team, the goal in the first season is to for the players and organization to gain familiarity with each other and build for future success. That being said, the team and the organization plans to be a contender in their very first season, which may be a daunting task. However, it is one that the Venom are willing to take head on.

*The enjoyment of the fans in Las Vegas will be the main priority of the organization.*

*The front office of the Venom will work tirelessly to bring in the best talent possible to help the team succeed and compete for a World Series as soon as possible.*
